Let's take 5 minutes to discuss this. After that we'll probably vote on (a) do we want an event to happen? y/n; if yes, (b) which of [EC day, ESF] do we want to hold?

Points brought up in discussion:

- If we actually do ESF again, we'll be screwed by admins. It was made clear last year that they see ESF as remnants of a culture they wanted to destroy and they'll go to great lengths to make our life a pain. OTOH EC day is something we've done for a decade and it's been quiet, so this would be much less drama.
- Tesla: it seems like there is an understanding between at least 3 of the 4 admins we'd have to deal with that this is not Roast and they're relatively sympathetic, the 4th person is more complicated but Tesla thinks we can deal with them. A lot of the problems could also probably be mitigated by starting earlier.
- Omar: I'll be meeting with Carrie and Sandy tomorrow, and they want (if this happens) to start organizing now. Both of them are very supportive and said they'd advocate on our behalf. Given that, from admins' perspective, everything went much better than expected last year, this might actually work out well.
- Adriana: note that the administration really likes alum events in general.

Vote on whether we hold an event: 9 yes, 1 absent.

Vote on event: 6 ESF, 1 EC day, 2 abstain, 1 absent.

ESF is happening.

Treasurer elections

Nominations accepted:

- Miana

Miana is treasurer.

Secretary elections

Nominations:

- Antares
- Kiara

- Antares: 2021 on putz. 60 wpm. 48 units for the next 2 semesters. Does debate, and maybe a sport. Won't be in contact for 6 weeks in the summer. Thinks the secretary is the one who makes exec & housecomm run smoothly, can affect the quality of governance a lot.
- Kiara: 2022 on 41w. 90 wpm? Maybe? Very organized. Not many commitments. Wants to dedicate herself to schoolwork and EC. Secretary is about making our government available and accessible to everyone, would be excited about being secretary because best part of EC to her so far has been getting to know people in EC and reaching out to them.

Do you think you would be able to take liberty with the tone of the minutes while capturing what was said accurately?

- Antares: I think I can get the message across
- Kiara: discretion is something I can handle

Antares, how will you deliver the youthful froshy energy that your competitor has?

Kiara admits she doesn't read memes.

Antares says memes are bad for your health and you shouldn't do memes. Antares also has, quote, flashes of being a headass.

Antares elected.
